CM & Civil Contractors – Bond Brothers
Project Manager - Zachary Locke
Mobile: 617-680-7259
E-mail: zlocke@bondbrothers.com

Project Superintendent – James Wilcox
Mobile: 617-835-8531
E-mail: jwilcox@bondbrothers.com

Prime Subcontractor
F&F Mechanical
Project Objective

- The intent of the project is to extend 24” Supply and Return Chilled Water lines from Sachem Street to the Science Hill Chilled Water loop south of Kline Biology Tower (KBT).

- The installation of the new Chilled Water lines will provide the required flow to meet the additional requirements for the new Yale Science Building (YSB) and subsequent projects on Science Hill.

- Complete this work prior to YSB start-up and commissioning phase which is being proposed to start in October 2018.
Project Timeline

- Mobilization & erection of temporary fence (Week of May 29th)
- Excavation for new pipes (4 - 6 weeks)
  - Hoe Ram may be required for rock excavation
- Install & Commission New CHW Lines (4 - 6 Weeks)
- Backfill and site restoration (3 - 4 Weeks)
- Demobilize (August 31st)

Notes:
- Dates and durations are tentative due to exploratory nature of project
- There will be noise and potential vibration impacts during the excavation activities.
- Dates and durations weather permitting
Proposed Pipe Routing
