Yale Science Building
Town Hall Meeting

June 28, 2018
Construction Progress southeast
Construction Progress looking west
Exhaust Stack Installation
Setting AHU
• Richard Hoffman & Associates has been retained as our relocation manager
• Many end users have been contacted by Shellie Anello to meet & work with Hoffman to validate lab equipment
Project Site Logistics Summer 2018

- Temp wall in SCL historic corridor mid July
- Demo retaining wall through late July
- Access SCL through east entry
- Rooting work above CSSSI through July, followed by concrete pour early August
- Selective demo at Bass Bridge. 3rd floor ramp removal starting 7/2. No impact to Bass interior
- Excavate for MH-18. Bass loading dock to remain open
- Intermittent sanitary work in driveway will be coordinated with Peabody deliveries
- YSB loading dock work within fence line
Temporary Wall in SCL 1st floor

- Temporary wall: wall will connect to bottom of existing timber on ceiling
- Tap off existing sprinkler to cover areas created from temp wall
- Staging for window framing support during renovation

Yale Science Building (YSB)
963-16

Drawing Date: 5/27/18
SCL Temp Wall Plan
